

2018 17th International Comic Artist Conference (ICC)

Greetings! It has already been two years since the 16th International Comic Artist Conference (ICC) opened in Korea in 2015. I am very happy that the 17th International Comic Artist Conference (ICC) will be opening in Taiwan this year, and hope that all participants of the conference will be able to forget about their busy daily lives while they are working and sharing their comic know-how in Taiwan.

This year, we will be talking about the "Development and Future of Web-toons," a center of comic attention around the world. There will also be the giant co-created, "Sky Lanterns Prayer Ceremony", put together by 200 comic artists to create a work 300m-high.

The 17th International Comic Artist Conference (ICC) in 2018 will have its grand opening in Xinbei City on June 13 and run until the 16th. The "Taipei Comic Artist Labor Union" and the "17th ICC Executive Committee" are honored to invite you to this year's International Comic Artist Conference.

Summary of the conference is as follows.
